

**Climate Friendly Food**

Low carbon food from rich soil farming

[www.climatefriendlyfood.org.uk](http://www.climatefriendlyfood.org.uk)

## Launch of Climate Friendly Food

**Tuesday 13<sup>th</sup> October, 10.00am to 1.00pm**

Shillingford Organics, Shillingford Abbot near Exeter, Devon

Climate Friendly Food will officially launch the UK's most comprehensive carbon footprint calculator for farmers and growers, along with the world's first low carbon participatory certification scheme.

To celebrate the launch, Climate Friendly Food have organised a week-long series of events. Starting in Dartington, Mukti Mitchell and Jonathan Smith will cycle 130 miles to Bristol, stopping at organic farms on the way.

Climate Friendly Food is committed to minimising its carbon footprint, so we're using sustainable travel to promote low carbon food. We will also be eating climate friendly food as we attach great importance to putting principles in to practice.

You are very welcome to join us at Shillingford Organics, which is free to attend, but as space is limited you will need to reserve a place as soon as possible. We will ask for donations towards tea and cakes on the day.

To book your place, please contact Jenny Hall by e-mail [jenny@climatefriendlyfood.org.uk](mailto:jenny@climatefriendlyfood.org.uk) or by phone on 01744 894284. We look forward to meeting you at this event.

### Event details

#### *Part A - about Climate Friendly Food*

<b>10.00 am</b> Welcome and introduction	Mukti Mitchell
<b>10.10am</b> Carbon emissions from agriculture	Jonathan Smith
<b>10.20am</b> The carbon calculator for farmers and growers	Mukti Mitchell
